

Wikipedia:Changing username/Simple

From Wikipedia, the free encyclopedia

< Wikipedia:Changing username

Requests to "usurp" an existing username should be made at Wikipedia:Changing username/Usurpations.

For help 'vanishing' from Wikipedia, please see courtesy vanishing.

This page is a forum in which users can request, and bureaucrats can consider and carry out requests to rename accounts to usernames that are **not yet taken**.

While bureaucrats carry out renames, other users (including bots) help by "clerking" the mechanics of this process. If you wish to help as a clerk, please read the linked page carefully.

Instructions

Once you have decided on the name you would like:

1. **Read this page first.** You must be aware of, and understand, all of that information before requesting a username change
2. Check to make sure this username is not already in use. Do this by searching for the name in this list. If the name appears in the list, even if the link is **red**, it is taken.
3. **Do not** create an account under the new name or move/redirect your userpages. We'll do that for you.
4. **Log in** with your present username in order to place your request. **Renames will not be approved if the requester is not logged in.**
5. **Click here to place your request.** (https://en.wikipedia.org/w/index.php?title=Wikipedia:Changing_username/Simple&action=edit§ion=new&preload=Wikipedia%3AChanging+username%2F&editintro=Wikipedia%3AChanging+username%2Feditintro)
 - **Add** your *current* username after **CURRENT=**
 - **Add** your *desired* username after **NEW=**
 - **Add** a reason for the change after **REASON=**
 - **Do not add** anything in the "subject/headline" box
6. Make sure that you have spelled both names correctly, including capitalization and spacing. Save the page.
7. Users with many edits should log out of their accounts to ensure the rename is carried out properly.
8. Check back on this page periodically to answer any questions that may arise regarding your request. Please be patient. It may take a few days for your request to be completed. If you do not answer any questions, your request may be declined due to no response.

Do not be surprised if you suddenly cannot log in to your old account; this merely indicates that you should log in under your new user name as the request has been fulfilled.

For editors with a universal login, be sure to logout of your global account before coming back to the English Wikipedia or you may accidentally recreate the old account.

 - @Teskey@btinternet.com: seeing as your account was created in 2006 (<https://en.wikipedia.org/wiki/Special:Log/Teskey@btinternet.com>), there is no need for a rename if you don't want one; your account name status seems to be along the same lines as Rms125a@hotmail.com, who still has their old e-mail address-based name.
